

Dear Star Bill of Lading Customer:

We are excited to introduce Distribution Data Incorporated (DDI) as the new logistics partner of **Starre Enterprises** and look forward to working with clients currently using the Starre Bill Of Lading product.

We are ready to help you save money and reduce your freight costs. The fastest way to begin is to call DDI's freight brokerage division LMG (Logistics Management Group). LMG has special carrier rates that, in most cases, can save clients **12%-26%** on freight costs. To obtain a brokerage quote, the process is easy:

- Call DDI/LMG at **216-362-3030**, use the code **SAVINGS**
- Provide the shipment description and details
- LMG will provide you with a freight quote verbally or by email
- If acceptable and you choose to move forward, LMG will take you through the process

It's really that simple! LMG will do all of the work coordinating the shipment with the carrier.

DDI has been in business since 1985 and offers many transportation management services such as:

- Lower Cost Freight Shipments
- Web-based Freight Rating Software to quickly obtain the least cost carrier
- Freight Invoice Audit and Payment (paper invoices and EDI)
- Freight Accrual Management reporting
- Supply Chain and Logistics Consulting

Our clients benefit by their participation in over \$600M in annual freight expenditures. Whether you have 3 or 333+ freight shipments per week, DDI can probably help you save money and reduce your annual freight budget.

Call **216-362-3030** and use the code **SAVINGS**, or send an email to sales@ddiservices.com.

Please visit our website at www.ddiservices.com.

We look forward to receiving your call or email.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert W. Hartig', is written over a light blue horizontal line.

Robert W. Hartig
